SECTION II - RISK FACTORS

RISK FACTORS

An investment in equity and equity related securities involves a high degree of risk and investors should not invest any funds in this offer unless they can afford to take the risk of losing all or a part of their investment. You should carefully consider all of the information in this Draft Letter of Offer, including the risks and uncertainties described below, before making an investment. In making an investment decision, prospective investor must rely on their own examination of our Company and terms of the Issue, including the merits and risk involved. If any of the following risks actually occur, our business, financial condition, results of operations and prospects could suffer, the trading price of our Equity Shares could decline and you may lose all or part of your investment. The risk and uncertainties described below are not the only risks that we currently face. Additional risk and uncertainties not presently known to us or that we currently believe to be immaterial may also have an adverse effect on our business, results of operations and financial condition. You should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment which in some material respects may be different from that which prevails in other countries.

This Draft Letter of Offer may also contain forward-looking statements that involve risks and uncertainties. Our Company's actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Letter of Offer. The financial and other implications of material impact of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However there are a few risk factors where the impact is not quantifiable and hence the same has not been disclosed in such risk factors.

The risk factors are classified under the parameters "Risks in relation to the issue and objects", "Risks in relation to the company and the ongoing business" and "Material litigations with impact on the company", in accordance with the requirements of the SEBI Regulations:

Internal Risk Factors

1. We are involved in a number of legal proceedings which, if determined against us, could adversely affect our business and financial condition.

We are party to certain legal proceedings. No assurances can be given as to whether these matters will be settled in our favour or against us. A summary of the material outstanding legal proceedings is set forth below:

Litigations involving our Company

Type of cases	Number of cases	Nature of dispute
Consumer Cases	5	Cases with respect to quality of seeds.
Tax Cases	18	Disallowances of certain deductions and rejection of miscellaneous expenses.

The contingent liability as of March 31, 2010 for litigations is ₹ 2,764.28 lacs.

Some of the Directors of our Company are party to certain pending litigations instituted under the Insecticides Act, 1968 and were named as respondents in the litigations consequent to their directorship in our Company. The said litigations were instituted against our Company prior to the Scheme and were transferred to United Phosphorus Limited (erstwhile Search Chem Industries Limited).

For further details of litigations involving our Company, please see “Outstanding Litigations and Defaults” on page 51 of this Draft Letter of Offer.

2. Our Company has not been carrying on any business activities since 2006 and we are unable to assure you that we shall commence business activities in the foreseeable future

Pursuant to the demerger of our manufacturing units to United Phosphorus Limited (“UPL”), formerly Search Chem Industries Limited, we have not undertaken any manufacturing activities. We carried on the business of traders subsequent to the demerger but discontinued such trading activities in 2006 and have not undertaken any commercial operations since then. Further, we are unable to assure you that our Company shall commence commercial activities any time in the foreseeable future. Currently, we derive our revenues primarily from dividends declared by UPL, in which we hold 2,49,85,130 equity shares of face value ₹ 2 each. As of March 31, 2010, UPL has a number of loss making subsidiaries and in the event the subsidiaries of UPL incur further losses, the consolidated financials of UPL shall be adversely affected. Under these circumstances, the ability of UPL to declare dividends in the future may be influenced which in turn shall affect our financial conditions and result of operations. Moreover, in the event we do not commence business activities in the future and the concurrent non-declaration of dividends by UPL for any reason, the value of our Equity Shares may decline.

3. Our Company has experienced negative cash flows.

Our Company has experienced negative cash flows in the recent past, the details of which are as follows:

(₹ in lacs)

Particulars	For the financial year ended on March 31, 2010	For the financial year ended on March 31, 2009
Cash Generated From Operating Activities	(6,417.22)	(753.10)
Net Cash from/(used in) financing activities	6,266.93	(2,875.00)

Any negative cash flows in the future could adversely affect our Company’s results of operations and financial condition. For further details, please see “Financial Information” beginning on page 35 of this Draft Letter of Offer.

4. Our contingent liabilities, not provided for, could adversely affect our financial condition.

As of March 31, 2010, we had contingent liabilities, not provided for, of ₹ 2,764.28 lacs. If these contingent liabilities were to materialize, our resources may not be adequate to meet these liabilities or our financial condition could be adversely affected.

5. We have entered into, and may enter into, related party transactions.

We have entered into the following related party transactions as of March 31, 2010:

(₹ in lacs)

Nature of Transactions		Enterprises over which key management personnel and their relatives have significant influence
1.	Dividend received	374.78
2.	Sale of fixed Assets	4,000.00
3.	Interest paid on loan	629.31
4.	Loan Taken	6,601.54
5.	Reimbursements made	21.24
6.	Outstandings receivable as at the balance sheet	157.40

date	
------	--

While we believe that all these transactions have been conducted on an arm's length basis, there can be no assurance that we could not have achieved more favourable terms had such transactions been entered into with unrelated parties and consequently would have a more favourable affect on our financial conditions.

6. *Deployment of issue proceeds proposed to be utilized towards general corporate purposes is entirely at the discretion of our Company and is not subject to any monitoring by any independent agency*

The Net Proceeds of this Issue are expected to be used for purposes as set forth under "Objects of the Issue" on page 16 of this Draft Letter of Offer. The use of the Net Proceeds towards general corporate purposes is based on management estimates and is not subject to any monitoring by any independent agency. Any inability on our part to effectively utilise the Issue Proceeds could adversely affect our financials.

7. *We are unable to assure you that our Company shall be in a position to declare dividends in the future.*

Subsequent to the implementation of the Scheme, we have declared dividend in the year 2003-04. We are unable to assure you that we shall be able to declare dividends in the future. The amount of future dividend payments, if any, will depend upon our future earnings, financial condition, cash flows, working capital requirements and capital expenditures.

8. *A conflict situation between our Company and other associate in the same line of business may affect the price of our Equity Shares*

Our Promoters are the promoters of UPL, formerly Search Chem Industries Limited, which is authorised by its memorandum of association to undertake activities similar to the activities authorised by our Memorandum of Association. In the event our Company commences any activity which is similar to the activities of UPL, a possible conflict of interest may affect our business.

Moreover, we are unable to assure you that any new business that our Promoters may undertake in the future would be executed through our Company or be related to our Company in any manner whatsoever. Such an eventuality may affect our results and the price of our Equity Shares.

9. *A significant portion of Net Proceeds would be utilised for repayment of loans and hence would not result in creation of tangible assets.*

We intend to use a significant portion of the Net Proceeds towards prepayment / repayment of a portion of the debt outstanding on the books of our Company, including any additional loans that we may take up. For further details on the use of the Issue proceeds, please see the section "Objects of the Issue" beginning on page 16 of this Draft Letter of Offer. The Issue proceeds, consequently, shall not result in the creation of any tangible assets.

10. *Some of our loans are callable on demand*

We have availed unsecured loans from companies aggregating to ₹ 20.00 lacs. These loans are callable on demand. We cannot assure that we would be able to immediately service their repayment from cash available with us and this may require us to borrow further at higher rate of interest. This could have a material adverse effect on our cash flow position and results of operations.

11. *Our Promoters will continue to exercise significant control over our business and shall be in a position to direct corporate actions which may be allegedly detrimental to the interest of other shareholders.*

Our Promoters and Promoter Group holds 45.65% of our equity share capital. Consequently, although they may not have a majority stake in our Company, they are in a position to continue to exercise significant control over our business and all matters requiring shareholder approval, including timing and distribution of dividends, election of officers and directors, our business strategy and policies, approval of significant corporate transactions such as mergers and business combinations and sale of assets. They have also undertaken to apply for Rights Issue Equity Shares in addition to their Rights Entitlement to the extent of any undersubscribed portion of the Issue, subject to obtaining any approvals required under applicable law, to ensure that at least 90% of the Issue is subscribed. Such subscription for Rights Issue Equity Shares over and above their Rights Entitlement, if allotted, may result in an increase in their percentage shareholding. Their control could approve or impede a merger, consolidation, takeover or other business combination involving us, or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control even if such transaction is allegedly beneficial to other shareholders.

12. *Our Registered Office is not owned by us and there is no formal documentation to record the terms of the tenancy.*

The registered office through which we operate our business is owned by UPL, formerly Search Chem Industries Limited. However, there is no formal documentation to record our usage of the premises, which is deemed to be informal in nature. In the event any dispute arises as to the informal terms of understanding, we shall have to shift to alternative premises and register the same as our registered office. Under these circumstances, if we are unable to identify suitable alternate premises and register the same as our registered office, we may be amenable to sanctions.

13. *Future issuances or sales of the Shares could significantly affect the trading price of the Equity Shares.*

The future issuance of Equity Shares by our Company or the disposal of Equity Shares by any of the major shareholders of our Company or the perception that such issuance or sales may occur may significantly affect the trading price of our Equity Shares. There can be no assurance that our Company will not do a further issuance of Equity Shares or that the shareholders will not dispose of, pledge or otherwise encumber their Equity Shares.

14. *There is no guarantee that the Rights Issue Equity Shares will be listed on BSE and the NSE in a timely manner, or at all*

In accordance with Indian law and practice, permission for listing and trading of the Rights Issue Equity Shares will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorising the issuance of shares to be submitted before the exchanges. There could be a failure or delay in listing the Rights Issue Equity Shares on BSE and the NSE. Any failure or delay in obtaining the approval would restrict your ability to dispose of Rights Issue Equity Shares allotted to you.

15. *There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.*

Our Company is subject to a daily circuit breaker imposed by all stock exchanges in India which does not allow transactions beyond a certain level of volatility in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by

the SEBI on Indian stock exchanges. The percentage limit on our Company's circuit breaker is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchanges do not inform our Company of the percentage limit of the circuit breaker from time to time, and may change it without our Company's knowledge. This circuit breaker effectively limits upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, there can be no assurance regarding the ability of shareholders to sell the Equity Shares or the price at which shareholders may be able to sell their Equity Shares at a particular point in time.

External Risk Factor

16. After this Issue, the price of our Equity Shares may be highly volatile.

The price of our Equity Shares on the Stock Exchanges may fluctuate after this Issue as a result of several factors, including:

- volatility in the Indian and global securities market or in the Rupee's value relative to the U.S. dollar, the Euro and other foreign currencies;
- our profitability and performance;
- perceptions about our Company's future performance or the performance of Indian companies in general;
- changes in the estimates of our Company's performance or recommendations by financial analysts;
- significant developments in India's economic liberalisation and deregulation policies;
- significant developments in India's fiscal and environmental regulations; and
- any other political or economic factors.

There can be no assurance that an active trading market for our Equity Shares will be sustained after this Issue, or that the price at which our Shares have historically traded will correspond to the price at which the Equity Shares are offered in this Issue or the price at which our Shares will trade in the market subsequent to this Issue.

17. Political instability or changes in the government in India could delay the further liberalisation of the Indian economy and adversely affect economic conditions in India generally and our business in particular.

Our business may be affected by foreign exchange rates and controls, interest rates, changes in government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Since 1991, successive Indian governments have pursued policies of economic liberalisation, including significantly relaxing restrictions on the private sector. Nevertheless, the roles of the Indian central and state governments in the Indian economy as producers, consumers and regulators have remained significant. A significant change in India's economic liberalisation and deregulation policies could adversely affect business and economic conditions in India generally, and our business in particular, if new restrictions on the private sector are introduced or if existing restrictions are increased.

18. If regional hostilities, terrorist attacks or social unrest in India increase, our business could be adversely affected and the trading price of the Equity Shares could decrease.

The Asian region has from time to time experienced instances of civil unrest, terrorist attacks and hostilities among neighbouring countries. Military activity or terrorist attacks in India in the future could influence the Indian economy by creating a greater perception that investments in Indian companies involve higher degrees of risk. These hostilities and tensions could lead to political or economic instability in India and a possible adverse effect on the Indian economy and our business and its future financial performance and the trading price of the Equity Shares.

Furthermore, India has also experienced social unrest in some parts of the country. If such tensions occur in other parts of the country, leading to overall political and economic instability, it could have an adverse effect on our business, future financial performance and the trading price of the Equity Shares.

19. *Financial instability in other countries, particularly countries with emerging markets, could disrupt Indian markets and our business and cause the trading price of our Equity Shares to decrease.*

The Indian financial markets and the Indian economy are influenced by economic and market conditions in other countries, particularly emerging market countries in Asia. Further the current financial turmoil in the United States has had a significant impact on the Indian economy as well as the stability of the Indian Markets. Financial instability in other countries such as Latin America, Russia and elsewhere in the world in recent years have had limited impact on the Indian economy and India was relatively unaffected by financial and liquidity crises experienced elsewhere. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy. This in turn could negatively impact the movement of exchange rates and interest rates in India. In short, any significant financial disruption could have an adverse effect on our business, future financial performance and the trading price of the Equity Shares.

20. *The Indian securities markets are more volatile than certain other securities markets.*

The Indian securities markets are more volatile than the securities markets in certain countries which are members of the Organisation for Economic Co-operation and Development. Indian stock exchanges have, in the recent past, experienced substantial fluctuations in the prices of listed securities.

Indian stock exchanges have experienced problems which, if such or similar problems were to continue or recur, could affect the market price and liquidity of the securities of Indian companies, including the Equity Shares. These problems have included temporary exchange closures, broker defaults, settlement delays and strikes by brokers. A closure of, or trading stoppage on, either of BSE and the NSE could adversely affect the trading price of the Equity Shares. Historical trading prices, therefore, may not be indicative of the prices at which the Equity Shares will trade in the future. In addition, the governing bodies of the Indian stock exchanges have from time to time imposed restrictions on trading in certain securities, limitations on price movements and margin requirements. Furthermore, from time to time disputes have occurred between listed companies, stock exchanges and other regulatory bodies, which in some cases may have had a negative effect on market sentiment.

21. *Any downgrading of India's debt rating by an international rating agency could have a negative impact on our business and the trading price of the Equity Shares.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely affect our ability to raise additional financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our ability to obtain financing to fund our growth on favourable terms or at all and, as a result, could have a material adverse effect on our results of operations and financial condition.

22. *Acts of violence could adversely affect the financial markets, result in a loss of customer confidence and adversely affect our business, results of operations, financial condition and cash flows*

Certain events that are beyond our control, including terrorist attacks and other acts of violence or war, which may adversely affect worldwide financial markets and potentially lead to economic recession,

could adversely affect our business, results of operations, financial condition and cash flows. Additionally, any of these events could lower confidence in India's economy. Southern Asia has, from time to time, experienced instances of civil unrest and political tensions and hostilities among neighbouring countries. Political tensions could create a perception that there is a risk of disruption of operations, which could have an adverse effect on the market for our services.

23. *Natural calamities could have a negative effect on the Indian economy and cause our business to suffer.*

India has experienced natural calamities such as earthquakes, a tsunami, floods and drought in the past few years. The extent and severity of these natural disasters determines their effect on the Indian economy. Further prolonged spells of below normal rainfall or other natural calamities could have a negative effect on the Indian economy, adversely affecting our business and the price of our Equity Shares.

24. *Investors may have difficulty enforcing judgments against us or our management.*

The enforcement by investors of civil liabilities, including the ability to effect service of process and to enforce judgments obtained in courts outside of India may be affected adversely by the fact that we are incorporated under the laws of the Republic of India and almost all of our executive officers and directors reside in India. Nearly all of our assets and the assets of our executive officers and directors are also located in India. As a result, it may be difficult to effect service of process upon us and any of these persons outside of India or to enforce outside of India, judgments obtained against us and these persons in courts outside of India.

Section 44A of the Indian Code of Civil Procedure, 1908, as amended, provides that where a foreign judgment has been rendered by a court in any country or territory outside India, which the Government has by notification declared to be a reciprocating territory, it may be enforced in India by proceedings in execution as if the judgment had been rendered by the relevant court in India. The United Kingdom has been declared by the Government to be a reciprocating territory for the purposes of Section 44A. However, the United States has not been declared by the Government to be a reciprocating territory for the purposes of Section 44A. A judgment of a court in the United States may be enforced in India only by a suit upon the judgment, subject to Section 13 of the Indian Code of Civil Procedure, 1908, and not by proceedings in execution.

The suit must be brought in India within three years from the date of the judgment in the same manner as any other suit filed to enforce a civil liability in India. Generally, there are considerable delays in the disposal of suits by Indian courts. It is unlikely that a court in India would award damages on the same basis as a foreign court if an action is brought in India. Furthermore, it is unlikely that an Indian court would enforce foreign judgments if it viewed the amount of damages awarded as excessive or inconsistent with Indian practice. A party seeking to enforce a foreign judgment in India is required to obtain prior approval from the RBI under FEMA to repatriate any amount recovered.

SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Accounting:

- (i) The financial statements have been prepared to comply in all material respects with the Notified accounting standard by Companies (Accounting Standards) Rules, 2006 (as amended) and the relevant provisions of the Companies Act, 1956. The Company follows the mercantile system of accounting and recognises income and expenditure on accrual basis. The accounting policies have been consistently applied by the Company are consistent with those used in the previous year.
- (ii) Financial statements are based on historical cost.

(b) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

(c) Fixed Assets and Depreciation:

- (i) Fixed Assets are stated at cost less depreciation.
- (ii) Depreciation

Depreciation has been provided:

- (1) On written down value basis in accordance with Section 205(2)(a) of the Companies Act, 1956 at the rates specified in Schedule XIV to the Companies Act, 1956.
- (2) Assets costing ₹ 5,000 or less have been depreciated at the rate of 100%.
- (3) In respect of additions to/deletions from the Fixed Assets, on pro-rata basis with reference to the month of addition/deletion of the Assets.

(iii) Impairments :

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount.

(d) Inventories:

Traded goods are valued at lower of cost or net realisable value.

(e) Investments:

Long-term investments are carried at cost of acquisition, except for the transfer of current investment to long term investment which is carried at the lower of cost and fair value at the date of transfer, and the resultant difference is recognised in the profit and loss account. However, the carrying amount is reduced to recognise a decline, other than temporary, in the value of long-term investments by a charge to the profit and loss account.

(f) Foreign Currency Transactions:

Transactions in foreign currency are recorded by applying the exchange rate at the date of the transaction. Monetary items denominated in foreign currency remaining unsettled at the end of the year, are translated at the closing rates, prevailing on the Balance Sheet date. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Exchange differences arising as a result of the above are recognised as income or expense in the profit and loss account except for exchange differences arising on a monetary item which, in substance, form part of the Company's net investment in a non-integral foreign operation which is accumulated in a Foreign Currency Translation Reserve until the disposal of the net investment. Exchange difference arising on the settlement of monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expenses in the year in which they arise.

(g) Borrowing Costs:

Interest and other costs incurred for acquisition of qualifying assets, upto the date of commissioning / installation, are capitalised as part of the cost of the said assets.

(h) Grants, Subsidies received:

Government grants / subsidies in the nature of promoters' contribution, given with reference to the total investment in an undertaking or by way of contribution towards its total capital outlay, are treated as capital reserve. Grants and subsidies from the government are recognized when there is reasonable assurance that the grant/subsidy will be received and all attaching conditions will be complied with.

(i) Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured

- Dividends: Revenue is recognised when the shareholders' right to receive payment is established by the balance sheet date.
- Rent: Lease income is recognised in the Profit and Loss Account on a straight-line basis over the lease term or as per the terms of contract.

(j) Taxation:

Tax expense comprises of current, deferred and fringe benefit tax. Current income tax and fringe benefit tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by the same governing taxation laws. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported

by convincing evidence that they can be realised against future taxable profits.

At each balance sheet date, the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available

MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. In the year in which the Minimum Alternative tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the profit and loss account and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

(k) Provisions:

A provision is recognised when the Company has a present legal or constructive obligation as a result of past events and it is probable that an obligation of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. Provisions are not discounted to its present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet and adjusted to reflect the current best estimates.

(l) Earning Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for events of bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(m) Cash and cash equivalents

Cash and cash equivalents for the purpose of Cash flow statement comprise of cash at bank and in hand and short term investments with an original maturity of three months or less.

Note: There has been no change in the accounting policies during the last completed accounting year for which the audit has been completed.

SECTION VI – LEGAL AND OTHER INFORMATION

OUTSTANDING LITIGATIONS AND DEFAULTS

All pending matters involving our Company which, if they result in an adverse outcome would materially and adversely affect our operations or our financial position, have been disclosed in this section.

There are no matters which are pending or which have arisen in the immediately preceding ten years, which have not been transferred to UPL, formerly Search Chem Industries Limited, pursuant to the Scheme of Amalgamation, involving:

- (1) Issues of moral turpitude or criminal liability on the part of our Company
- (2) Material violations of statutory regulations by our Company
- (3) Economic offences where proceedings have been initiated against our Company.

In terms of Part E of Schedule VIII of SEBI Regulations, which sets out disclosure requirements the purpose of inclusion in the letter of offer, the following materiality tests have been applied for disclosure of litigations involving our Company:

1.1 For the outstanding litigations which may not have any impact on our future revenues:

- (a) Where the aggregate amount involved in such individual litigation exceeds one per cent of the net worth of our Company as per last completed financial year; or
- (b) Where the decision in one case is likely to affect the decision in similar cases, even though the amount involved in single case individually may not exceed one per cent of the net worth of our Company as per the last completed financial year.

1.2 For the outstanding litigations which may have any impact on the future revenues:

I. Pending matters which, if they result in an adverse outcome, would materially and adversely affect the operations or the financial position of our Company:

1. Appeals filed by our Company before the State Consumer Disputes Redressal Forum at Mumbai.

Our Company has filed four appeals before the State Consumer Disputes Redressal Commission at Mumbai against Manohar (Appeal no. 880 of 2007 in Complaint No: 313 of 2006), Vitthal Yeshwant Wankhede and another (Appeal no. 882 of 2007 in Complaint no. 315 of 2006), Ramrao Bansode (Appeal no. 881 of 2007 in Complaint no. 315 of 2006) and Kisan Bansode (Appeal no. 883 of 2007 in Complaint no. 316 of 2006) (individually referred to as “Respondent”). The facts of the four appeals and the amounts involved therein are the same and are as follows:

On December 22, 2005, the Respondent purchased seeds from Vijay Beej Masonry Stores, which were marketed by our Company. On allegedly not achieving the desired results, the Respondent

filed a complaint with the District Consumer Redressal Forum, Aurangabad (“**Forum**”), the Blocked Development Officer and the Jilla Parishad. The Forum relied on a report of the Agriculture Development Officer and passed an order in the captioned matter on May 19, 2007 (“**Order**”), awarding a compensation of ₹ 1,41,075/- to the Respondent. Our Company appealed against the Order before the State Consumer Disputes Redressal Commission at Mumbai (“**Commission**”) in August 2007 (“**Appeal**”) by challenging the Order on the grounds that the same is contrary to legal principles, is misconceived, untenable and is contrary to the provisions of the Consumer Protection Act, 1986. Our Company has stated that the seeds must be sent to a laboratory for testing and that the report of the Agriculture Development Officer was prepared without following the norms prescribed under law and hence should not have been relied upon by the Forum. The Appeal is currently pending.

2. *Appeal filed by Rajendra Girase against our Company before the State Consumer Dispute Redressal Commission, Aurangabad Bench*

Rajendra Girase filed a consumer complaint against our Company before the District Consumer Dispute Redressal Forum, Aurangabad (“**Forum**”) alleging that the papai seeds purchased from Chetan Krishi Seva Kendra which were produced and marketed by our Company were below expectation. The Forum passed an order (“**Award**”) directing our Company to pay a sum of ₹ 52,550/- as compensation and ordered compliance within 30 days from the receipt of the order. The Complainant refused to accept the compensation and filed an Appeal (No.1302 of 2007 in Complaint No.75 of 2007) challenging the Order before the State Consumer and Dispute Redressal Commission, Aurangabad Bench in October 2007. The appeal is currently pending before the State Consumer Disputes Redressal Commission.

II. Tax litigations involving our Company

Please read the following disclosure of tax litigations involving our Company in conjunction with the table on contingent liability given at the end of this chapter.

1. Our Company has filed an appeal with the High Court of Gujarat against an Order of the Income Tax Appellate Tribunal (“**ITAT**”) for the assessment year 1992-1993.

Our Company has appealed as to whether the ITAT was right in law holding that the alleged income from Advance License Benefit receivable is taxable in the year under consideration even though the said income has accrued to our Company in the subsequent years and whether the ITAT was correct in holding that the premium paid for the leasehold land is not revenue expenditure and not allowable. Our Company has also challenged whether the ITAT was correct in holding that the premium of leasehold land cannot be allowed on proportionate basis spread over the period of lease which is totally contrary to the decision of Supreme Court in the case of Madras Industrial Investment Corporation Limited v CIT (225 ITR 802).

The matter is currently pending.

2. Our Company has filed an appeal with the Income Tax Appellate Tribunal (“**ITAT**”) against order dated January 21, 1997 passed by CIT- I, Surat for the assessment year 1993-1994. The Company has challenged due to:

- a. Inclusion of the Advance License Benefit amounting to ₹ 5,46,20,751/- in the total income on the ground that no income had accrued to our Company until imports were made and raw materials were consumed in the subsequent year.
- b. Not allowing the claim in respect of deduction of a sum of ₹ 22,88,579/- paid to Gujarat Industrial Development Corporation as premium on lease hold.
- c. Not allowing the deduction in respect of the ₹ 8,07,600/- being the payment of stamp duty for transfer of rights in the lease hold land on the ground that expenses were

-
- incurred as a consequences of the scheme of amalgamation of a company with our Company and not for purpose of raising authorized share capital and conducting survey and expenditure was in the nature of revenue and not capital.
- d. Rejection by the CIT of Company's claim for deduction in respect of a sum of ₹ 42,911/- representing miscellaneous expenses for facilitating the use of leasehold land as the expenses constituted revenue expenditure eligible for deduction under section 37 (1), ITA.
 - e. Disallowing a sum of ₹ 4,60,500/-, representing a registration fee and stamp duty for increase in authorized capital as expenditure did not represent capital expenditure, it represented revenue expenditure.
 - f.  - h. Upholding of the action of Deputy Commissioner, in allowing the deductions under section 80 I/ IA after deducting depreciation eligible under section 32 on the ground that deduction under section 80 I and section 80 IA ought to have been allowed on the profits of the concerned undertakings without deducting the depreciation eligible under section 32 in view of the fact that depreciation under section 32 is eligible on the basis of the block assets for our Company as a whole and not in respect of individual assets of the concerned industrial undertakings and accordingly depreciation cannot be allocated to the different industrial undertakings as per the scheme of the Income Tax Act, 1961 in respect of allowance depreciation of the concept of block of assets.

- a. The CIT holding that provisions of sections 80 AB are applicable to the computation of deduction under sections 80 I and 80 IA, and the deductions under section 80 I and 80 IA are to be computed at 30% of the Business Income on the ground of ignoring the specific directions given by the CIT on page 8 of the appellate Order dated March 15, 2000 bearing appeal no. Cas (I)/179/99- 2000. Our Company has also stated the ground of reducing exchange difference amounting to ₹ 2,20,59,629/- from “Profits of the Business’ without appreciating the fact that specific directions had been issued to treat the said amount as ‘turnover’. The exchange difference amounting to ₹ 2,20,59,629/- was not included in ‘export turnover’ while the same was included in ‘total turnover’. Our Company has also stated the ground of treating the loss amounting to ₹ 12,58,278/- in respect of export of traded goods as nil while computing adjusted profits of the business.
 - b. Application of section 40A (2) (b) by the CIT to a transaction of sale on the ground that section 40 A (2) (b) can be applied only to expenditure and that no addition can be made in respect of sale of White Phosphorous at differential rates.
 - c. Upholding of the action of Joint Commissioner of Income-tax of levying interest under section 234B amounting to ₹ 1,20,42,473/- in the notice of demand when no specific directions for such levy were issued in the assessment order.

7. Our Company has filed an appeal with the Commissioner of Income Tax (Appeals) (“CIT”) against order dated November 20, 2000 giving effect to the Order of the Joint Commissioner of Income Tax (“JCIT”). Our Company has filed an appeal due to:
- a. Not granting relief in respect of computation of long term capital gains arising on sale of undertaking and in not quantifying the capital loss to be carried forward to assessment year 1997-1998 after re-computing the long term capital gains and in not re-computing the long term capital gains arising on sale of undertaking by excluding an amount of ₹ 1,38,89,304/- being interest capitalized in the books of account but not allowed as a revenue expenditure in the assessment order passed for assessment year 1995-1996.
 - b. Allowing deductions under sections 80-I and 80-IA on the ground that as per the directions of the Commissioner of Income Tax (Appeals), the qualifying amounts for the deductions under sections 80-I and 80 IA ought to be restricted to 30% of Gross Total Income i.e ₹ 9,40,76,587/- (being 30% of ₹ 31,35,88,625/-) instead of computing the said deductions under sections 80-I and 80- IA of the Business Income.
 - c. Alleged wrongful computation of the deduction under section 80 HHC on the ground of reducing exchange difference amounting to ₹ 2,20,59,629 /-while computing “profits of the business’. Our Company has challenged reducing exchange difference on exports amounting to ₹ 2,20,59,629/- while computing “Profits of the Business’ without appreciating the fact that specific directions had been issued to not to exclude the same from ‘export turnover’ and ‘total turnover’, treating the loss amounting to ₹ 12,58,278/- in respect of export of traded goods as nil while computing adjusted profits of the business.
 - d. Application of section 40A (2) (b) by the CIT to a transaction of sale on the ground that section 40 A (2) (b) can be applied only to expenditure and no addition can be made in respect of sale of White Phosphorous at differential rates.
 - e. Upholding of the action of Joint Commissioner of Income-tax of levying interest under

section 234B amounting to ₹ 1,20,42,473/- without issuing specific directions for such levy. Reliance has been placed by our Company upon the decision of the Hon'ble Supreme Court in the case of CIT vs Ranchi Club Limited.

The matter is currently pending before the High Court.

8. Our Company has filed an appeal with the ITAT against the order dated March 7, 2002 passed by the Commissioner of Income Tax (Appeals) - VI, Surat for the assessment year 1997-1998. Our Company has filed the appeal as the Assessing Officer had neither adjudicated on the issues set aside by the CIT in order dated January 19, 2001 nor passed a speaking order. The CIT had no power to set aside any issue to the Assessing Officer with effect from June 1, 2001 and a speaking order ought have been passed by the him, on the issues such as Disallowance out of interest paid (₹ 2,54,45,725/-), Additions in respect of sale of white phosphorus at different rates (₹ 2,34,52,490/-) and Claim for deduction in respect of expenses treated as deferred revenue expenditure in the accounts- Research and development expenses (₹ 2,31,56,500/-) and Avalon service Charges (₹ 1,79,17,996/-) which had been set aside to the Assessing Officer in the Appellate order dated January 19, 2001. Our Company has also stated that the Assessing Officer has issued directions given in the appellate order dated January 19, 2001 to follow appellate orders for assessment years 1995-96 and 1996-97.

Our Company has also prayed for the following:

- a. Disallowance of ₹ 2,54,45,725/- out of interest paid as interest payments were made wholly and exclusively for the purpose of the business. Additionally, there was no justification for computing notional interest at 18% and the Share Capital and Reserves and Surplus of our Company amounted to ₹ 385.74/- crores.
- b. Addition of ₹ 2,34,52,490/- made under section 40 A (2) (b), ITA in respect of the sale of white phosphorus as section 40 A (2) (b) could apply only to expenditure incurred and cannot apply to a transaction of sale and full justification had been provided for charging lower rates to its sister concerns as compared to rates charged to the outside parties. Further, for making the addition, the fair market value of white phosphorus had been taken on the basis of the arithmetic average of ₹ 130.80/- and ₹ 144/- per kg, ignoring the fact that market value of white phosphorus was affected by various factors including credit worthiness, quantity supplied, packing, etc and for the purpose of comparison, the sales made at higher rates of ₹ 144/- were not excluded.
- c. Disallowance of ₹ 2,31,56,500/-, in respect of expenses incurred on research and development for existing products but treated as deferred revenue expenses in the accounts on the ground that the said expenditure has been incurred on research and development and accordingly, allowable as a deduction under section 35.
- d. Disallowance of ₹ 1,79,17,996/-, made in respect of services charges for computer software treated as deferred revenue expenditure in the accounts on the ground that the expenditure represented only expenditure on software allowable under section 37 (1) since the expenditure on hardware has already been capitalized and accordingly no portion of the capital expenditure was included in the aforesaid amount.
- e. Disallowance of ₹ 96,045/- made under section 40 (a) (iia) in respect of wealth- tax paid on the ground that section 40 (a) (iia) is not attracted as the definition of wealth- tax given in Explanation to section 40 (a) (iia) specifically excludes any particular assets of the business and in the case at hand wealth- tax is paid only on certain specified assets and not on the value of all assets of the business. Further, Company has without prejudice to the above sought deletion of the addition of ₹ 96,045/- on that the ground that the same has resulted into double disallowance.
- f. Re-computation of the deduction under section 80 HHC which has been computed as nil as while computing the "profits of the business", 90% of the Management Service Charges (₹ 3,56,90,000/-), Discount (₹ 10,53,433/-) and Miscellaneous Receipts (₹ 44,86,093/-) ought not to be reduced from the profits of the business since the said items

are not specifically required to be reduced from the profits of the business as per definition given in clause (baa) of the Explanation below section 80 HHC (4A). Further 90 % of exchange difference amounting to ₹ 2,77,21,673/- ought not to be reduced while computing profits of the business in view of the fact that the said amount represented turnover. Our Company has also stated that only the net amount of interest received by our Company ought to have been reduced while computing the profits of the business as per Explanation (baa) below section 80 HHC (4 A). Our Company has further stated that we had credited in the profit and loss Account, an amount of ₹ 3,22,81,466/- as interest received and had debited an amount of ₹ 46,14,76,435/- as interest paid. As interest paid was more than interest received, no portion of the interest ought to have been reduced while computing the profits of the business for the purpose of working out deduction under section 80 HHC. Our Company has also claimed that the word 'receipts' as referred to in the Explanation (baa) below section 80 HHC (4A) refers only to the net receipts and accordingly, gross receipts of interest cannot be reduced from the profits of the business.

- g. Re-computation of the deduction under section 80 HHC which has been computed as nil as while computing the "total turnover", excise duty amounting to ₹ 38,66,80,373/- and sales-tax amounting to ₹ 6,12,06,238/- ought to be included as a part of the total turnover in view of the fact that the 'total turnover' has to be made comparable with the term 'export turnover' and since export turnover does not include excise duty and sales-tax, the total turnover should also have been taken exclusive of excise duty and sales-tax. Further, a sum of ₹ 14,84,43,037/- (i.e. ₹ 15, 56,36,635/- – ₹ 71,93,593/-) in respect of sale proceeds realized after September 30, 1997 for which the extension of time up to September 30, 1998 was granted under the provisions of section 80 HHC (2) (a) of the Act ought to have been included in the 'export turnover'. Additionally, exchange difference amounting to ₹ 2,77,21,673/- ought to have been included as part of the export turnover and total turnover for the purpose of computing deduction under section 80 HHC.
- h. Re-computation of the deduction under section 80 HHC which has been computed as nil as while profits attributable to export of traded goods resulted in a negative figure, the deduction under section 80 HHC (3) (b) in respect of export of traded goods ought to have been at nil.
- i. Re-computation of the deduction under section 80-I and 80-IA, which was computed as nil, to be computed with items of 'other income' not being excluded from the 'profits of the eligible undertakings'. The deduction under section 80-I and 80-IA ought to be computed with reference to the profits of the eligible undertakings and not with reference to the 'profits and gains of the business'. The Management service charges had already been excluded while computing the profits of the eligible undertakings and further exclusion resulted in double disallowance thereof. Further, since advance license benefit and pass book benefit have been treated as income in the year of import of the eligible raw materials, the reversal of the said advance license benefit and pass book benefit amounting to ₹ 14,61,35,678/- and ₹ 13,24,36,891/- respectively ought to be reduced while computing cost of raw materials for the purpose of 'profits of the eligible undertakings. Alternatively, as per the departmental stand of considering the benefits as income in the year of export, the income deemed to have been received amounting to ₹ 9,17,77,247/- and ₹ 19,96,61,366/- as advance license and pass book benefit respectively ought to be reduced from the cost of the raw materials for working out the profits of the eligible units. Additionally, the deduction ought to be allowed on profits eligible undertakings and ought not to be restricted to 30 % on the gross total income.
- j. Re-computation of the book profits on the ground that the starting point was taken as "Profits after Tax". Further our Company has submitted that the profit on sale of investments ought to be excluded while computing the book profits under section 115 JA as the expression book profits is intended to be confined to "business profits' and not to income chargeable to tax under the head 'capital gains'.

The matter is currently pending.

A person, being a nominee, becoming entitled to the Rights Issue Equity Shares by reason of the death of the original Equity Shareholder(s), shall be entitled to the same advantages to which he would be entitled if he were the registered holder of the Equity Shares. Where the nominee is a minor, the Equity Shareholder(s) may also make a nomination to appoint, in the prescribed manner, any person to become entitled to the Equity Share(s), in the event of death of the said holder, during the minority of the nominee. A nomination shall stand rescinded upon the sale of the Equity Shares by the person nominating. A transferee will be entitled to make a fresh nomination in the manner prescribed. Fresh nominations can be made only in the prescribed form available on request at the Registered Office of the Company or such other person at such addresses as may be notified by the Company. Option to receive Rights Issue Equity Shares in Dematerialized Form

Investors shall be allotted the Rights Issue Equity Shares in dematerialized (electronic) form at the option of the Investor. The Company has signed a tripartite agreement with NSDL on May 2, 1997 which enables the Investors to hold and trade in Equity Shares in a dematerialized form, instead of holding the Equity Shares in the form of physical certificates. The Company has also signed a tripartite agreement with CDSL

on April 9, 1999 which enables the Investors to hold and trade in Equity Shares in a dematerialized form, instead of holding the Equity Shares in the form of physical certificates.

In this Issue, the allottees who have opted for Rights Issue Equity Shares in dematerialized form will receive their Rights Issue Equity Shares in the form of an electronic credit to their beneficiary account as given in the CAF, after verification with a depository participant. Investor will have to give the relevant particulars for this purpose in the appropriate place in the CAF. CAFs, which do not accurately contain this information, will be given the Rights Issue Equity Shares in physical form. No separate CAFs for Rights Issue Equity Shares in physical and/or dematerialized form should be made.

INVESTORS MAY PLEASE NOTE THAT THE EQUITY SHARES OF THE COMPANY CAN BE TRADED ON THE STOCK EXCHANGES ONLY IN DEMATERIALIZED FORM.

The procedure for availing the facility for Allotment of Rights Issue Equity Shares in this Issue in the electronic form is as under:

- Open a beneficiary account with any depository participant (care should be taken that the beneficiary account should carry the name of the holder in the same manner as is registered in the records of our Company. In the case of joint holding, the beneficiary account should be opened carrying the names of the holders in the same order as registered in the records of our Company). In case of Investors having various folios in our Company with different joint holders, the Investors will have to open separate accounts for such holdings. *Those Equity Shareholders who have already opened such beneficiary account(s) need not adhere to this step.*
- For Equity Shareholders already holding Equity Shares in dematerialized form as on the Record Date, the beneficial account number shall be printed on the CAF. For those who open accounts later or those who change their accounts and wish to receive their Rights Issue Equity Shares by way of credit to such account, the necessary details of their beneficiary account should be filled in the space provided in the CAF. It may be noted that the Allotment of Rights Issue Equity Shares arising out of this Issue may be made in dematerialized form even if the original Equity Shares are not dematerialized. Nonetheless, it should be ensured that the depository account is in the name(s) of the Equity Shareholders and the names are in the same order as in the records of our Company.

The responsibility for correctness of information (including Investor's age and other details) filled in the CAF vis-à-vis such information with the Investor's depository participant, would rest with the Investor. Investors should ensure that the names of the Investors and the order in which they appear in CAF should be the same as registered with the Investor's depository participant.

If incomplete / incorrect beneficiary account details are given in the CAF the Investor will get Rights Issue Equity Shares in physical form.

The Rights Issue Equity Shares allotted to applicants opting for issue in dematerialized form, would be directly credited to the beneficiary account as given in the CAF after verification. Allotment advice, refund order (if any) would be sent directly to the applicant by the Registrar to the Issue but the applicant's depository participant will provide to him the confirmation of the credit of such Rights Issue Equity Shares to the applicant's depository account.
